

Access to HE Courses

If on completion of your course you decide to continue your education at university, you can take out an Advanced Learner Loan and then a student loan for [Higher Education](#). Your loans will be rolled into one and only one monthly repayment will be made.

However, if you progress to Higher Education after taking out a loan for an [Access to HE Diploma](#), Student Finance England will 'write off' any outstanding Advanced Learner Loan balances you owe for an Access to HE course once you complete a Higher Education course. This means you don't have to repay it.

The Higher Education course must be [eligible](#) for student finance.
